

# AT SEA

## Access to raw and processed data

- Windows shares (Samba)
- NFS export
- shipboard web (Thursday show-n-tell)
  - data and figures
  - documentation for processing
  - processing programs
  - calibrations

## Single-ping data:

- signal return (bioacoustics)
- data quality (bubbles, ice, bottom depth)
- instrument comparisons

## Processed data:

- dynamic sampling schemes
- following drifting instrumentation
- interpreting science during the cruise
